Sample email to send when people share a prayer request:

Dear (Guest Name),

I hope you are enjoying Hope Awakens and that John's presentations are giving you hope.

John shared with me the prayer that you submitted. I want you to know that I am praying for your request: (prayer request as well as a short personal prayer for the request).

You might want to even include a short prayer here: "Dear God, I want to pray for..."

(Guest Name), here's a Bible promise that's helped me through my difficult times. Share a favorite Bible promise.

Don't miss the next Hope Awakens meeting on (insert next meeting date, time and title). It's a very encouraging presentation.

Sample Email to send to someone who has asked a question:

Dear (Guest Name),

I trust you are enjoying Hope Awakens and that John's presentations are encouraging you.

I've also received your question about (summarize question). Let me help you with that.

(If John has covered the question in his presentations, then reply with the Bible verses and references he used and try to bring more clarity by explaining them. You may choose to share

additional Bible verses to answer their questions, but don't travel beyond what John has covered.

OR

If John has not covered the question in his presentation:

1. and they refer to questions covered in future topics (i.e. mark of the beast, sabbath or state of the dead) let them know that he will cover that on (give the date and time of the presentation)
2. and they are general in nature (i.e. why does God not answer my prayers or will my pet go to heaven?), then go ahead and provide Bible verses and references and brief explanations. Rely on the Bible to explain as much as possible rather than on our explanations.)

I hope this helps you with your query. If you need additional information feel free to reply to me or call (your number).

Regards,

(Your name)
